

## Road use charge, goods transport Portugal

Next 8<sup>th</sup> December, more electronic toll's will come into force for all vehicles driving on some specific sections of expressways (Scut's) in Portugal. Signs are positioned at, or near, all zone entry points. There are no barriers or tollbooths.

The toll is calculated according to the vehicle's category.

### Vehicle's category affected:

Class	Description
<b>1</b>	Motorcycles and vehicles with height measured vertically as from first axis below 1,10m, with or without trailer.
<b>2</b>	Vehicles with two axes and height measured vertically equal or above 1,10 m.
<b>3</b>	Vehicles with three axes and height measured vertically equal or above 1,10 m.
<b>4</b>	Vehicles with three or more axes and height measured vertically equal or above 1,10 m.

## Payment options for foreign-registered vehicles:

**EasyToll:** The EasyToll system is a new solution for automatic payment of electronic tolls, for tourists and immigrants, with the association of a credit card (Mastercard and Visa) to the license plate of the vehicle. The driver, not having to leave the vehicle, enters the credit card in the payment terminal and the system automatically associates the vehicle's license plate to the bankcard. The tolls rates owed are directly debited to the account associated with the card.

At the time of accession, valid for 30 days, a ticket is issued as proof and must be kept.

**TollCard:** The TollCard is an "on the shelf" product, activated through an SMS, with a fixed amount to be consumed depending on circulation. This solution allows payment in cash or with bankcard, is valid for one year and your balance can be found on the Internet. It is aimed at tourists and immigrants. The driver can buy a pre-loaded card with 5, 10, 20 or 40 €.

**TollService:** The driver can buy a prepaid ticket, ready to use, with a fixed charge of €20, with unlimited use for 3 days. This system only applies to light vehicles.

**Via Verde Visitors:** For frequent stays, the driver may rent a Temporary 'Via Verde Visitors' Device.

1. Cost of rental: € 6 in the first week, and 1.5 € for each week after that;
2. Initial deposit € 27.50 (value refunded upon return of the device);
3. Consumption depending on use;

Validity period of 90 days, extendable for an equal period whenever a new minimum preload is made before the expiration of that period.
